Blueprint Paper, Plotter Paper, Drafting Paper, Diazo ...

A blueprint is a reproduction of a technical drawing or engineering drawing using a contact print process on light-sensitive sheets. Introduced by Sir John Herschel in 1842, the process allowed rapid and accurate production of an unlimited number of copies. It was widely used for over a century for the reproduction of specification drawings used in construction and industry. The blueprint process was characterized by white lines on a blue background, a negative of the original. The process was n

Blueprint - Wikipedia

The Engineer's Blueprint (previously known as the misspelled Engineers Blueprint) is an item added by Immersive Engineering. It is used in the Engineer's Workbench; putting the Blueprint in the Workbench's main slot will allow specialized items to be crafted. Different blueprints correspond to different items.

Engineer's Blueprint - Official Feed The Beast Wiki

The classic reproduction methods involved blue and white appearances (whether white-on-blue or blue-on-white), which is why engineering drawings were long called, and even today are still often called, "blueprints" or "bluelines", even though those terms are anachronistic from a literal perspective, since most copies of engineering drawings today are made by more modern methods (often inkjet or laser printing) that yield black or multicolour lines on white paper. The more generic term "print ...
