Cesarean delivery is one of the most common surgical procedures in the United States. 7 According to the National Center for Health Statistics (NCHS), approximately 1.3 million cesarean deliveries ...

Cesarean Delivery in Family Medicine (Position Paper)

Introduction. Rates of caesarean section are increasing globally (Vogel et al., 2015) which means that more and more women face the often difficult decision regarding mode of birth for subsequent babies. In Australia, approximately one third of all births are by caesarean section with repeat caesarean section an important contributor (Australian Institute of Health and Welfare, 2018).
