Photography The Whole Story Book

I don't know how a book on photography can claim to be the 'whole story' when it doesn't list either Leica or Kodachrome in the index, nor can I find any significant mention of any of the tools that photographers use to make photographs. It's also marred by a few inaccuracies and an art-critical bias.

Offers an overview of photography, placing it in the context of the social and cultural developments that have taken place globally since its arrival. This title traces the rapid evolution of photographic style, period by period and movement by movement.

Books Kinokuniya: Photography: the Whole Story ...

It may not be the 'whole story' as claimed, but it is an informative and entertaining read, captivating one from time to time as one chances upon well-digested information one had somehow missed in other sources. Looking through the index there is thorough coverage of much of photography, and for the price it is pretty much a 'must have'.
