The staffing function is an increasingly important function of management, although it is sometimes left out when the core functions are discussed. It can be seen closely related to organizing, with both focused on ensuring the resources are directed to the right processes and tasks.

Functions of Management - Planning, Organizing, Staffing ...

Over the ensuing decades, many corporations created so-called "IT departments" to manage the computer technologies related to their business. Whatever these departments worked on became the de facto definition of Information Technology, one that has evolved over time. Today, IT departments have responsibilities in areas like computer tech support, business computer network and database ...
